The time period for reply, if any, is set in the attached communication.

Office Action Summary

Application No.

09/475,950

Applicant(s)

SAAVEDRA-LIM, FRANK S.

Examiner

MUSSA A. SHAAWAT

Art Unit

3627

Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 06 October 2008.
- 2a) ☒ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-6, 9, 10 and 12-15 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☒ Claim(s) 1-6, 9, 10 and 12-15 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
- Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
- Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
 2. ☐ Certified copies of the priority documents have been received in Application No. _____.
 3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

Attachment(s)

- 1) ☐ Notice of References Cited (PTO-892)
- 2) ☐ Notice of Draftsperson's Patent Drawing Review (PTO-948)
- 3) ☐ Information Disclosure Statement(s) (PTO/SB/C)
- Paper No(s)/Mail Date _____
- 4) ☐ Interview Summary (PTO-413)
- Paper No(s)/Mail Date _____
- 5) ☐ Notice of Informal Patent Application
- 6) ☐ Other: _____

DETAILED ACTION

1. This action is in response to amendment filed on 10/06/2008. Claim 1 has been amended. Claim 11 has been cancelled. Claim 15 has been newly added. Claims 1-6, 9-10 and 12-15 are pending examination.

Claim Objections

2. Claims 12-14 are objected to because of the following informalities: Claims 12-14 are currently dependent off of a cancelled claim 11, they should dependent from claim 1. Appropriate correction is required.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-6, 9-10 and 12-15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Basch et al., US Patent No. (6,119,103) referred to hereinafter as Basch.

5. Basch. disclose a method of managing and assessing a set of risks relative to a financial product, said method being accessed through a data processing system, wherein said data processing system comprises a series of nodes operatively connected with each other, said method comprising the steps of: (a) performing an application processing procedure on one or more customers, comprising a check of the

creditworthiness of one or more selected customers; and issuing a financial product to one or more of said customers if said selected customer is determined to be creditworthy, thus resulting in an accepted customer, and declining said application if said customer is determined to be not creditworthy; (b) assessing a credit authorization request from a system user, wherein said request is initiated by a use of said financial product; (c) utilizing a predictive modeling routine to perform said assessment; (d) accepting or declining said credit authorization request as based upon an outcome of said assessment; (e) downloading an assessment result to said data processing system for transfer to a database accessible by one or more remote nodes of said system, (f) applying a fraud indicator to each assessment and wherein said fraud indicator is selected from a list of fraud indicators and wherein each of said fraud indicators on the list is representative of a defined area of risk;

Basch does not explicitly disclose benchmarking risk management effectiveness by determining fraud loss ratios. However, benchmarking risk management effectiveness by determining fraud loss ratios, is certainly well known to those of ordinary skill in the art, and official notice to that effect is hereby taken. Therefore, it would have been obvious to one of ordinary skill in the art, at the time of the invention, to have modified the method of Basch, so as to include benchmarking risk management effectiveness by determining fraud loss ratios as is well known to do, in order to track and understand the effectiveness of the risk management program, since so doing could be performed readily and easily by any person of ordinary skill in the art, with neither undue experimentation, nor risk of unexpected results.

Examiner notes that Official Notice was relied upon to teach the above limitation (g) when it was claimed in claim 11, and official notice still applies to limitation (g) since it is the same as in claim 11. Therefore since the examiner took Official Notice fact to claims 11-14 taken by the examiner on 12/27/2007, and the appellant failed to specifically point out the supposed errors in the examiner's action, and to state why the notice fact is not considered to be common knowledge or well known in the art, In view of the inadequate traversal, and in light of the requirements of 2144.03(c), ***the examiner notes that the well known in the art statements of the previous Office Action are considered to be admitted prior art.*** Furthermore **the Official Notice Traversal is no longer seasonable, therefore the Official Notice is considered to be admitted prior art.**

Regarding claim 2, in the method of Basch, the financial product is a credit card.

Regarding claims 3-6, the recitations drawn to the nature of the particular entity applying for the credit, whether it be a business entity or an individual entity, have been deemed merely directed to an intended usage of the device, hence, afforded little patentable weight. See MPEP §§ 2114 and 2173.05(g). Additionally, however, note that Basch, do indeed disclose using their method to serve both individual entities and business/corporate entities.

Regarding claim 10, in the method of Basch, a filtering step comprises a credit score filter for eliminating a portion of a population that does not pass through said filter.

Regarding claim 9, in the method of Basch, a set of data relative to said credit authorization request is retained in a memory of said data processing system, Basch. do not explicitly disclose that the data is retained for the purpose of being utilized to determine the effectiveness of an assessment methodology. However, reviewing results to determine the effectiveness of a method over time is certainly well known, hence obvious, to those of ordinary skill in the art of lending, and official notice to that effect is hereby taken. Therefore, it would have been obvious to one of ordinary skill in the art, at the time of the invention, to have further modified the method of Basch, so as to utilize the retained results for the purpose determining the effectiveness of an assessment methodology (if such was not already being done), as is well known to do, in order to learn how to continually improve the assessment methodology to identify a greater and greater percentage of the fraudulent applications, since so doing could be performed readily and easily by any person of ordinary skill in the art, with neither undue experimentation, nor risk of unexpected results.

Regarding claims 12-14, Basch, do not explicitly disclose benchmarking risk management effectiveness by determining fraud loss ratios, including the ratio of fraud loss to any of portfolio maturity, volume of total sales, or total charge-offs. However, benchmarking risk management effectiveness by determining fraud loss ratios, including the ratio of fraud loss to any of portfolio maturity, volume of total sales, or total charge-offs, is certainly well known to those of ordinary skill in the art, and official notice to that effect is hereby taken. Therefore, it would have been obvious to one of ordinary skill in the art, at the time of the invention, to have modified the method of Basch, so as to include benchmarking risk management effectiveness by determining fraud loss

ratios, including the ratio of fraud loss to any of portfolio maturity, volume of total sales, or total charge-offs, as is well known to do, in order to track and understand the effectiveness of the risk management program, since so doing could be performed readily and easily by any person of ordinary skill in the art, with neither undue experimentation, nor risk of unexpected results.

As per claim 15, Basch teaches wherein the fraud indicator is selected from the group consisting of a change in social security number, a change in personal identification number, a change of address, a change of phone number, account closures questionable purchases, and questionable chargeback's (see at least col.1).

Response to Arguments

6. Applicant's arguments have been fully considered but they are not deemed persuasive. In particular applicant argues that, A) Basch does not teach applying a fraud indicator to each assessment and wherein said fraud indicator is selected from a list of fraud indicator and wherein each of said fraud indicator on the list is representative of a defined area of risk; B) Basch does not teach determining fraud loss ratios to benchmark risk management effectiveness; C) it appears that applicant is traversing the use of official notice to claim 9.

In response to A) the examiner respectfully disagrees. Applicant is reminded that claims must be given their broadest reasonable interpretation. Basch teaches a financial risk prediction system that assess financial risk associated with an account and /or an account holder based on the account holder's transaction pattern and/or transaction pertaining to the account holder (see at least col.1 lines 15-20, col.3 line 50-

col.4 line 17). Therefore Basch still meets the scope of the limitation as currently claimed.

In response to B) the examiner would like to direct applicant's attention to the fact that Basch was not relied on to teach the above limitation (g), however official notice was relied upon to teach this limitation when it was recited in claim 11, the same rejection still applies to limitation (g), (see rejection of claim 1 above for more explanation).

In response to C), regarding the Official Notice fact to claim 9, taken by the examiner on the office action dated 07/05/2007, the applicant failed to specifically point out the supposed errors in the examiner's action, and to state why the notice fact is not considered to be common knowledge or well known in the art, therefore In view of the inadequate traversal, and in light of the requirements of 2144.03(c), ***the examiner notes that the well known in the art statements of the previous Office Action are considered to be admitted prior art.*** Furthermore ***the Official Notice Traversal is no longer seasonable, therefore the Official Notice is considered to be admitted prior art.***

In addition, with regards to the official notice of limitation (g) in claim 1, and claims 12-14, the Official Notice fact to claims 11-14 in the previous action dated on 12/27/2007 which includes limitation (g), the applicant failed to specifically point out the supposed errors in the examiner's action, and to state why the notice fact is not considered to be common knowledge or well known in the art, therefore In view of the inadequate traversal, and in light of the requirements of 2144.03(c), ***the examiner notes that the well known in the art statements of the previous Office Action are***

considered to be admitted prior art. Furthermore the Official Notice Traversal is no longer seasonable, therefore the Official Notice is considered to be admitted prior art.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Please refer to form 892 for cited references.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to MUSSA A. SHAAWAT whose telephone number is (571)272-2945. The examiner can normally be reached on Mon-Fri (8am-5:30pm).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Florian Zeender can be reached on 571-272-6790. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
